

The Program

The School of Social Work at New Mexico State University, in conjunction with Children, Youth and Families Department (CYFD), collaborate to provide training related to Title IV-E of the Social Security Act.

The primary goal of the scholar program is to increase the number of BSW and MSW social workers available to provide services to children at risk of child abuse and/or neglect and their families.

Child Welfare Scholars receive specialized course work and training in child welfare, including a one year placement in a supervised field practicum setting within a CYFD county office.
